V-PER
VESSEL PERFORMANCE MANAGER

ALBIS MARINE PERFORMANCE COMPETENCE CENTER

EXPERT KNOW-HOW & SUPPORT AT YOUR FINGERTIPS

In addition to its ongoing regular data service Albis Marine Performance's Analysts provide optional personal expert support. In case special evaluations are required our experts are at your disposal and timely provide you with just the right information. Analyses are performed based upon onboard vessel data automatically collected by V-PER and can be customized to the individual needs of each customer. Analyses can be done as a one-time project or developed into tailor-made recurring reports. Whatever information you need – if it is within your data, we bring it forward for you!

BENEFITS

- Expert know-how and personal support at your disposal
- Timely provision of customized supporting data, analyses and reports for answering individual questions, e.g., as preparation for stakeholder meetings.
- Delivers valuable insights for profound decision-making
- Comprehensive feedback about the effectiveness of efficiency measures
- Verification of warranted properties and conditions with high-resolution data
- Target group and topic focussed reports

EXEMPLARY AREAS OF SUPPORT

- Docking impact analysis, e.g., hull cleaning effects or impact of newly installed fuel saving technologies like hull coatings or new propellers
- Charter warranty analyses at specific times and/or conditions
- Plausibility checks of noon reports by comparison of measured daily fuel consumption with ROBs
- Auxiliaries and boiler consumption analysis
- Benchmarking of vessels with/without V-PER
- Evaluation of technical processes onboard, e.g., thermal gradient at fuel switch over
